

KCASA Open Water Championships 2019

The 2019 Kent Open Water Championship results which have been extracted from the Swim England London Championship results. The Swim England South East Championship results have also been added to the table although the 'Kent Placings' are informal ones. Remember that it is not really possible to compare times effectively. Although the courses will be as accurately measured as possible, there are a number of other factors to take into account such as the weather and water conditions.

The full results for the London Championship can be accessed [here](#) and the South East ones [here](#).

Event: 2,000m

Female
