There is no requirement for you to provide printed programmes for spectators.

GALA RECORDER - 24 HOURS PRIOR

The recorders must use the latest recording programme, which will be provided by the KJL Gala Secretary.

KJL2024_Gala_Recording_Sheet_v1.1

Please save the blank gala recording sheet template to the hard drive on your computer. Please do not save to your OneDrive. Once saved, open File Explorer and go to the folder where you saved the file. Right-click on the file and choose Properties from the context menu. At the bottom of the General tab, select the Unblock checkbox and select OK. When you open the file you will be able to enable macros as the file is from a trusted source.

- Every team at the gala shall provide an electronic copy, in the required format, of their intended team list to the gala recorder on behalf of the referee. This will show a named swimmer (s) for each event, their date of birth and their Swim England number. This will be given no later than 24 hours before the start of the warm up.
- Each club will be required to complete a validation check so there should be no errors upon submission.
- The gala recorder is required to maintain confidentiality on the team selection of all clubs.

The recording programme and team sheets may contain sensitive personal information. GDPR data protection rules require that access to these is limited to those requiring it to operate KJL and its galas. They may not be generally distributed to clubs.

Although this recording system only requires a very basic knowledge of Excel and is simple to use, recorders are asked to familiarise themselves with this programme in advance of the gala. If you have any problems that you cannot resolve or any further questions, please contact Mark Leman for assistance.

This file will be included in the host club pack and will also be available for download from the hosted KJL website page at Kent Swimming.
